PURPOSE

The Cumberland School Committee believes that the race, color, religion, gender, national origin, sexual orientation, disability, age, or gender expression of an individual should not serve as a barrier to his or her equal opportunity for employment. Practices and conditions may exist which adversely affect the employment opportunities of entire groups of people, most notably women and members of minority groups and disabled persons.

The mere elimination of discriminatory barriers to employment is often not in itself sufficient to provide equal opportunities. The Committee, therefore, intends to pursue affirmative action through positive and aggressive measures designed to support and fulfill the Committee's commitment to equal employment opportunity.

In support of this intention, the Committee shall create a plan of affirmative action which will ensure non-discrimination in employment, include remedies to overcome the effect of any past exclusions, remove any existing barriers to the provision of equal employment opportunity, and adhere to both federal and state laws and regulations regarding affirmative action and equal employment opportunity.
